

Pallet Policy

- Albertsons Companies distribution centers DO NOT participate in pallet exchange. Payment, credit, and pallet returns will not be provided for white wood pallets.
- All pooled pallets will be inspected at the point of receiving based on the pallet specifications outlined by each specific vendor (i.e., CHEP, PECO, iGPS).
- All white wood pallets must meet the minimum pallet specification provided below.
- Delivered pallets not meeting the specifications below will be subject to compliance fees. Products on non-compliant pallets will be transferred to pallets that meet the specifications and a re-palletizing fee will be assessed to the unloading of the trailer.

Minimum Pallet Specifications

- CHEP, PECO, iGPS or Grade A, 48"x40" wooden pallet.
- Specific parts should meet all minimum pallet specifications below.
- Stringers must have all top and bottom boards securely attached.
- Stringers must allow for 4-way entry.
- Lead boards must be flush with the end of all stringers.
- Double stringers, blocked patched, and companion board stringers are not acceptable.
- No missing or broken boards across the width on the top or the bottom of the pallet.
- No protruding nails on any side, top or bottom of the pallet.
- No contamination (to include grease, chemicals, or any other substance that may damage or soil the received product or the container that it is shipped in).

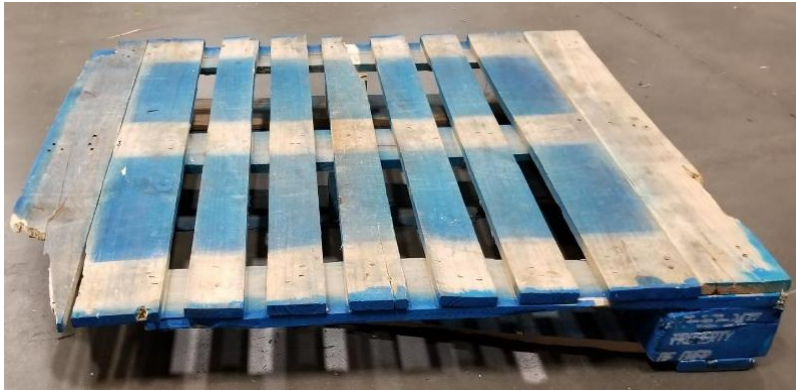

Pallet Specifications Minimum Dimensions

- A. 3 parts – 1¼" x 3½" x 48"
- B. 2 parts – 5/8" x 5½" or 3½" x 40"
- C. 2 parts – 5/8" x 5½" or 3½" x 40"
- D. 5 parts – 5/8" x 3½" x 40"
- E. 3 parts – 5/8" x 3½" x 40"

Working together to be the *favorite local supermarket™*

Pictures below depict examples of non-compliant pallets that do not comply with the pallet policy or meet our supply chain compliance requirements.
